Subject: RE: Commission review

Hello everyone: you are listed as the staff liaisons for one of the committees (Fire Advisory, Water Advisory, Commission on the Environment, Agricultural Policy, Fish and Wildlife) which the Board of Supervisors identified as reviewers of the upcoming draft cannabis cultivation ordinance. A preview of the ordinance (NOT a first reading) is expected to be on the June 14th agenda.

I am not sure if the Board will direct staff to gather comments from your various commissions to be presented at the last Board meeting on June 28th or whether they will expect them at their August 2nd meeting. However, I wanted to alert you to this request and that there may be a need to call for a special meeting of your commissions in order to review and comment on the draft ordinance. My understanding from the Board is that they will not want to wait for a regularly scheduled meeting if some of your commissions meet every few months or quarterly.

FYI, if the Board wants comments back on the 28th (and I hope not), I would need comments by June 16th – not much time, I know – so I can get the Board letter done by the 17th. If they don't want them until August 2, I would need comments by July 20th so I could do the Board letter by July 21 – gives us a bit more time.

Just giving you all a heads up so you can plan accordingly. Stay tuned to the June 14th meeting ;-)) and thanks.
